

Wild Cherry

Tattoo Aftercare Instructions

Thank you for choosing Wild Cherry for your new tattoo. How you look after you tattoo during the healing process is VERY important.

Please read through these instructions carefully and follow them to the best of your ability.

- * After about an hour you can remove the dressing
- * Wash the tattoo with warm water and antibacterial soap using clean hands, never a cloth or sponge.
- * Pat dry using a clean towel or kitchen towel
- * Gently rub a small amount of Tattoo Goo or Savlon into the tattoo (only enough to give a shine).
- * Only re-apply a dressing if you are likely to get dirt or dust in it, or clothes are likely to rub or aggitate it.
- * Repeat this process 2 to 4 times a day.
- * No swimming or soaking in the bath.
- * Always use a sun block of SPF30 or more on your tattoo to prevent fading and no prolonged sunlight for the first 2 months.
- * DO NOT pick or scratch your new tattoo, you will ruin it, and we will charge for re-colouring if we can see its your fault.

Your tattoo should heal between 1 and 2 weeks, washing it as mentioned above will prevent heavy scabbing, if it scabs too much, you run the risk of catching it on clothing and pulling out the colour, or it may crack and tou will see the crack marks when it is healed.

Any problems or questions please contact us on:01732 771230 or email via our website www.wildcherrytattoo.co.uk
